

## KI-E Board meeting minutes

Meeting held in Akureyri, Thursday May 15 at 15:15

### Attendees

Josy Glatigny, Gunnsteinn Björnsson, Karl Lippitz, Konráð Konráðsson, Ralf Otto Gogolinski, Huang-Wo-Tien, Michael Mulhaul, Richard Baumann, Guido De Bie, Geneviève Donet Monteagud, Achim Härterich, Guðlaugur Kristjánsson, Stefano Farese, Christ van Oevelen, Sverre Hauger, Wolfgang Brunner, Mihai Bobitan, Jaroslav Jevčák, Richardo Whyte, Eiður Ævarsson, Franz Nagelseder, Markus Lanz, Filip Delanote, Maura Magni, Henk Oostdam, Manfred Puchner, Jan Boen, Jan van Hove, Sasha, Dolores Muniz, Samyrra Bafdel, Paul Palazzolo

### Welcome

KIE President Gunnsteinn started the meeting by welcoming the board members to Akureyri.

### Approval of previous minutes

The minutes of the February online meeting were approved without any comments.

### General Status Update

Gunnsteinn informed that since the last board meeting, much of our work has been focused on the upcoming convention taking place this weekend. Additionally, two weeks ago Gunnsteinn attended the Young Kiwanis Summit in Lisbon. 30 young Kiwanians, under 40 took part in the most energized event Gunnsteinn has ever attended. These people are full of ideas; they are full of energy and really want to make some changes. They are also sending us a message!

Gunnsteinn highly recommended that in each district a platform would be created for young people.

### Finance Report

Treasurer Ralf-Otto presented the financial report. The first installment of our dues was transferred at the end of April, and the second will come at the end of September. Most of our money is invested in fixed-term deposit accounts that generate interest income. The expenses of the operation have increased by around 6,000 euro compared to the end of January. Overall, we are within the budget.

Ralf-Otto pointed out that 17,000 euros are reserved for district activities. To increase membership, to set up new clubs and to support membership activities. However, the districts must send requests for grants and support to make use of this.

We are still in a very good position to fulfill our obligations and to invest in the future.

## EUROPE

KI President Lee asked about possible reasons for underutilization of the membership development budget and if the districts are being invited to make use of this money, especially for MeetUps.

Elio thinks that there is a lack of awareness about the chances for grants and support for clubs and districts. He said that he has plans to distribute more information.

Following a question from Guðlaugur, Jan van Hove explained that there is a fixed format for requesting MeetUp grants and that if the format is followed request are handled without delay. Requests for grants outside of that format are also considered if sent to the Ghent office.

Franz talked about the success of MeetUps in Germany and Austria and confirmed that requesting grants for them is very easy.

### Convention Status

Gunnsteinn said that preparations for the convention are done, and we are ready. However, there is an issue with the proposal for new PP&Gs (Policies, Procedures and Guidelines) on the agenda at the House of Delegates. Last week, we received comments from Kiwanis International indicating that there are some issues in this document that need to be fixed. There is no common agreement among the EC, our advisors, and committee chairs on whether we can proceed with the proposal.

Gunnsteinn then gave some background on the need for new PP&Gs after the approval of new Articles of Association in Luxembourg that disabled some of our fundamental rules. In response, we had agreed to use KI bylaws as guidelines in areas where our own rules were insufficient. Since then, we have been developing new regulations for Europe. However, certain aspects still require adjustment, and there is not yet complete consensus on their seriousness or priority. Nonetheless, these issues need to be addressed.

Given that these matters are likely to be raised at the House of Delegates, Gunnsteinn had a proposal based on recent internal discussions. He suggested that, instead of continuing to follow KI regulation as we have this year, the board should vote to adopt this document in its entirety as our interim guideline for the coming year. The final decision would then be deferred to the House of Delegates meeting in Catania, allowing for any necessary amendments while ensuring we have a European rule in effect. This was seconded by Elio.

Gunnsteinn then formally proposed adopting the document that the PP&G committee has prepared as the board's guidelines but postponing the decision of the House of Delegates until the next convention in Catania.

The proposal was put to a hands-up vote. The results of the voting were as follows: eight votes in favor, one vote against and two abstentions.

Gunnsteinn clarified that the voting rules in the proposal now adopted are the same as in the previous KIE PP&Gs.

## EUROPE

Following a question from Wolfgang, Gunnsteinn and Elio confirmed that the current and next year's board would take the work with KI forward and that a meeting would be set up with KI to discuss the comments made on the proposal.

### Report on Membership

Franz Nagelseder started by explaining that clubs that have not yet paid all dues are included in the report. From October first until the end of April we have recruited 714 new members but lost 400 resulting in a net growth of just over 300 members. An analysis of the new members this year shows that more than 60% of them are in the 40 to 70 age group. The average age is 51, and the proportion of men to women is 393 to 252. This is a very positive development as we should increase the percentage of women in Kiwanis.

An interesting point is that of 714 new members, 648 are coming from existing clubs. 66 new members come from 4 new clubs, and 346 clubs have recruited new members.

Franz then talked about the membership strategies toward 2025-2026 and emphasized that strategies should always be long-term.

- Kiwanis Voices is a new program that will be introduced by Michel Mulhaul.
- The NEO club project has been successful and will be continued. There has been a problem regarding the quality of data in the KI membership database as birth dates seem to be missing. That makes it difficult to control which clubs have NEO status and should be rewarded.
- Campus for membership and growth. A one-day event with governors, lieutenant governors and club builders of a district focusing on membership and growth. This has been done in Austria for some years and recently also in Germany. Franz urged other districts to consider implementing this. Club analysis can be provided by the committee and Jan van Hove as well as an introduction to a lot of available tools.

### Report on Training & Education

Jan van Hove reported on the European Young Kiwanis Summit that took place in Lisbon in May. The purpose of the event was among others to give young Kiwanians a forum to share ideas and an opportunity to get more engaged. There were 30 participants from 10 districts, all young Kiwanians.

Sasha then gave a presentation of the activities at the event and Jan van Hove described the downlights, highlights and outcomes of the summit.

The event was very positively evaluated by the participants who expressed their interest in taking part in more events like this. They want a platform, a place and time to step up in their districts!

Key messages from the participants are that it is too complicated to become a member and that it takes too long time. Current members also need to follow and stay current with digital trends.

# Kiwaniis®

## EUROPE

Following the presentation there was a debate of the value of the “veto” option for club membership.

### BMC Update

Eiður went through the main activities of the BMC committee since our last meeting. Website updates, emailing, and social media communication have mostly been related to the convention and the European Young Kiwanis Summit (EYKS). At the convention there is the Infotainment event and a workshop on local service projects.

Dolores told about her visit for a training event in Romania and an event with Télémie in Luxembourg. She also highlighted an article on the KI website about the new club in Iceland-Faroes district titled “Family teamwork produces a new club”.

### KCF Update

Markus Lanz presented the final report of the “We help Ukraine” project. Total of € 1.327 million has been received for the project over three years. 22 truckloads of goods for Ukrainian children have been delivered with the support of Marelbo and Bernard Altmann. A new fundraising activity for children in Ukraine is being discussed at the request of KI President-elect Michael Mulhaul. Markus also presented the financial report for the project.

Work is still ongoing with the KCF Europe legal entity and for The Possibility Project (TPP) a workshop and training for the chairs is being prepared.

Markus then talked about his visits to the Romania convention and the Télémie fundraising event in Luxembourg.

KCF European Chair Summit will be held in Prague in September.

Regarding the Global Impact Committee, the current level of donations for TPP is around \$ 7.86 million and there is still ongoing support for UNICEF to fulfill the Eliminate pledge.

KCF has awarded \$ 374,745 via 158 grants/scholarships so far this Kiwanis year. Markus encouraged European districts and clubs to apply for grants. The money is there but apparently not all districts and clubs are aware of it. Only three clubs and two districts from Europe have applied so far.

Total fundraising outside of the TPP project amounts to \$ 1.548 million.

Asked by Guido about the IDD project Markus confirmed that we still have connections with the IDD project as well as the Eliminate project.

### Updates by the KI President and CEO

KI President Lee talked about the importance of collaboration between KI and KIE and how KCF and KI trustees can act as a bridge between them. He also talked about future collaboration; how governors and governors-elects, presidents and presidents-elects should work together to ensure continuity.

# Kiwanis<sup>®</sup>

## EUROPE

CEO Paul Palazzolo's message was that now is the time for action and that the club's strength is the value they bring to their members.

### Updates by the Trustees

Trustees Filip and Maura reported on their activities as trustees.

### Updates by various guests

Asia-Pacific President, Huang-Wo-Tien.

### An update by the KI President-elect

Michael Mulhaul gave an inspiring speech and presented the new program "Kiwanis Voices".

### Any other business

Wolfgang encouraged the governors to support the proposal for an amendment of KI bylaws to allow for remote voting that is being put forward in Pittsburg.

Meeting was adjourned at 17:22.

# **MESSAGES FROM PARTICIPANTS**

# Highlights and Downlights

The background of the slide features a collage of student photographs. On the left, there are two smaller photos of student groups. On the right, a larger photo shows a group of students in yellow shirts. A faint university crest is visible in the top right corner.

# Downlights

## MEMBERSHIP

- It is **too complicated to become a member** and **it takes too long** before you are a “real member” (trial member, candidate member,...)
- Clubs should be **more open** and change the **complicated admission procedures** that are too old-fashioned in the year 2025, definitively for younger generations

# Downlights

## ATMOSPHERE AND COOPERATION

- **Intergenerational cooperation** can be difficult in the same club because of **other styles and traditions**
- Young people don't like older members to do **fundraising to come in the picture** with a cheque, instead of for the cause
- Young members should be **invited more** in board meetings, conventions,... to speak up

The background of the slide features a collage of images. On the left, there are two smaller photos of groups of young people smiling. On the right, a larger photo shows a group of people, some wearing yellow shirts, looking towards the right. In the top right corner, the Kiwanis International logo is visible, featuring a circular emblem with a stylized 'K' and the word 'INTERNATIONAL' around it.

# Highlights

## MEMBER MOTIVATORS

- Young people find importance of both **social connection** and **community engagement**
- Motivation comes from **meaningful projects** and **shared experiences**, also outside the official Kiwanis activities  
(travel, concerts, meet & having a drink together,...)

# Highlights

## DIGITALISATION

- Younger clubs are engaging through **TikTok** and fun promotional activities.
- The EYKS participants are willing to give a webinar about **the use of AI for Kiwanis purposes**, for interested people from other generations

# Highlights

## SENSE OF BELONGING

- Participants want to **stay in touch** and have a catch up event after 6 months
- Regular format: participants want the EYKS to become a **recurring event**
- Participants want also **a platform to connect with younger members at district level**
- What's app group: > 500 messages since the end of the EYKS

# **5 THINGS TO REMEMBER**

# 5 things to remember

- The European Young Kiwanis Summit is **positively evaluated** and **young people want more**
- Young people want a **platform for young kiwanians in their own district**
- You need to give young members **a place and time to step up on stage in your district**, e.g. during growth campus or district conventions
- Young people disagree with old styles of becoming a member. Work to do about this in club bylaws, a **mentality change is needed**.
- **Digitalisation: Insta, Tiktok and many AI**: if you are not yet “into” it within your district, it’s time to create the sense of urgency!
